"The Irish Mandala"

Disclaimer : Please regard that I make my conversions from the originally used and chosen materials with help of original brand thread cards + full skeins of variegated threads - but following my own taste of color and the feeling of what will go with that particular design rather than using so-called "official" conversion charts. The piece is designed for the use of the "original" materials (variegated silks etc) and the effect and overall look can be quite different if you use other materials. I do not endorse any of the nowadays offered "conversion packs" by some thread manufacturers as they rarely are made by comparison to the original materials I chose and which I have on my desk here "in person".

If you wish to use different materials feel free to do so, but please follow your own feelings, eyes and taste of color rather than buying "bulk" conversions !! I am not responsible if you do not like the look of the conversion materials. If you want the piece to look the same, use the same :)

Thread approximations regarding used amounts are made with a software and may vary depending of the personal stitching habits. They are an *approximation* only ! Conversion numbers for DMC threads are behind the slash. "na" means: Not available. "--" means: NO decent substitute available.

Zweigart Belfast or other evenweaves/linen 14/28 count White,Black or a light airy blue ?	The mere design size is 347 347 stitches. Add enough unstitched fabric all around for holding, framing and finishing. Due to the amount of beading and the over-one details I recommend a 14/28 count fabric here. You will be on your own finding the accurate placement of beads, especially for the center, on higher counts. You should be a seasoned stitcher for this task :)
