The Sweet Garden of Elizabeth I

materials list

Dear Stitcher,

Congratulations on starting your needlework adventure with this beautiful Châtelaine Design. When Martina Rosenberg created this design, she used the finest materials and techniques that suited her vision to ensure the finished project would be beautiful and prestigious – just as an original Châtelaine, the mistress of a castle, would have done.

In some cases, she felt able to recommend an alternative to the silks used but only if it matched her design vision. If you want your finished project to look like the original, then you will need to use the materials recommended below.

However, times change and so do materials. If a thread or bead is no longer available or doesn't match your aesthetics or budget, then please feel free to use materials you prefer. After all, this will be your project, a culmination of your creativity and expression using Martina's design. So, give your Châtelaine your own touch, it will make it all the more personal to you – and your own castle!

Please note: Thread usage has been calculated using the design software and may vary depending on personal stitching habits. They are an approximation only based on the design being stitched on 32ct fabric.

Where applicable, a DMC substitution is listed but for variegated threads the DMC may only replace one of the colours that appear in a skein so will not give the same stitched effect.

Colour names may change or vary so when kitting up the design, please ensure you use the code number given to ensure you have the correct/recommended materials.

Swarovski Crystals: 4mm Bicones 5328 (was 5301)

There are areas of the design where bicones would have been recommended but as this design is 'unfinished', we leave it to the individual stitcher to decide what to put in those places. There are suggestions in the update list on the Châtelaine website (chatelaine.de/chatelaine-designs-chart-updates) and you can also see pictures in the Châtelaine Gallery (chatelainegallery.com) or ask in the Châtelaine Support Group in Facebook (www.facebook.com/groups/1425026251057540) for advice/suggestions.
