

Châtelaine suppliers

To make it easier for stitchers to find supplies for their Châtelaines closer to home, we have put together this list of companies that stock printed Châtelaine charts, Châtelaine materials kits or some of the threads that are used in the designs. We have not included companies which supply beads and these are generally easier to find locally, nor any crystal suppliers.

This list is by no means comprehensive and we will be adding to it, and updating it, in the future. We would appreciate you emailing us at updatechatelaine@gmail.com if you know of any other suppliers who should be included to help your fellow Châtelaine enthusiasts.
