

## LEFT HAND

DIRECTION OF STITCH  
(Forwards)

anticlockwise

## HALF RHODES STITCH

This stitch is usually worked by counting threads on an evenweave fabric, but can be worked on any fabric.

It can be worked as a single stitch or as a fill stitch.

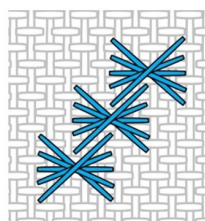

**1.** Bring the thread up at **a**. Count across four holes and down four holes; take the thread back down into the fifth hole, at **b**; bring the thread up at one hole forwards from your starting point, at **c**.

**2.** Take the thread forwards and down into the next hole up, at **d**. Bring the thread across and one hole forwards from **c**, at **e**.

**3.** Continue working down each side of your shape, working one hole forwards each time. Threads will overlap each other, creating a raised effect.

**To join a new thread:** Take the thread down at the fourth hole forwards. Finish off at the back of the work. Bring a new thread up one hole forward from the start of the last stitch made and continue.

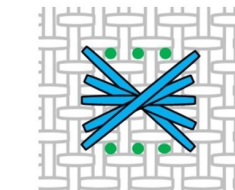

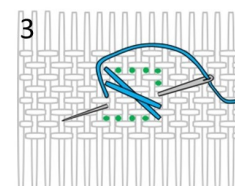

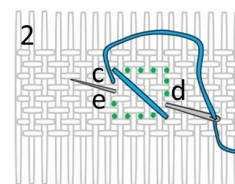

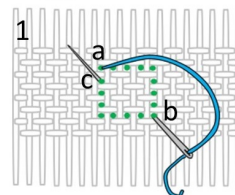

Work stitches side by side to use as a fill stitch

## RIGHT HAND

DIRECTION OF STITCH  
(Forwards)

anticlockwise
