Thread	Color	Substitute DMC
Swarovski Crystals 5301 - 4mm Bicones	« a » => Heliotrope => 6 pc. « b » => Crystal AB => 9 pc. « c » => Cantaloupe AB2x => 10 pc. « e » => Aurum 2x => 4 pc.	
Swarovski Crystals 5040 – 6mm Flat Rounds	« G » => Crystal AB => 4 pc	
Mill Hill Glass Treasure	« F » => Snowflake 12164 => 1 pc	
Zweigart Belfast 3609 16/32 or 14/28 count linen Cream, black, soft pastel yellow or rose , unbleached. Best is do to a floss-toss with your colors in hands....	MERE Design size = 169 x 301 stitches – please add free fabric to your own requirements Due to density of beading , overlay stitches in the garment and over-one for face etc. it might be easier to stitch on a 14 count fabric.	

Na (with no substitute given!) => definitely not available, as the variegation of the chosen thread can not be matched without messing up the design.

-- **=> really NO good match possible, but if a DMC is given, you *can* use that.**

Na -- xyz Poss => given DMC is a possible match of one of the colors in the varieg. thread

Disclaimer : Please regard that I make conversions from the originally used and chosen materials with help of original brand thread cards + full skeins of variegated threads - but following my own taste of color and the feeling of what will go with that particular design rather than using so-called "official" conversion charts. Please regard that the piece is designed for the use of the "original" materials (variegated silks etc) and the effect and overall look can be quite different if you use other materials.

I do not endorse -any- of the nowadays offered "conversion packs" by some thread manufacturers as they rarely are made by comparison to the **original** materials I chose and which I have on my desk here "in person". Nor do I support **ANY** other "comparable" threads which are dyed following my choice of materials + then offered in forums etc. as conversion for a particular Châtelaine design !

If you wish to use different materials feel free to do so, but please follow your own feelings, eyes and taste of color rather than buying "bulk" conversions !! I am not responsible if you do not like the look of the conversion materials. If you want the piece to look the same, use the same :)

Thread approximations regarding used amounts are made with a software and may vary depending of the personal stitching habits. They are an *approximation* only !
