Fabric : 32/16 count linen Belfast from Zweigart Colors: white or ecru or BLACK !! (or to your taste !!) Please allow for a generous free space of linen around each single design so you can later easily sew it into a quilt block, or frame it, or do with it whatever you envision ☺ (2" around on each side would not be too much I find...)	ONE single design has the stitch size of 327 x 327 stitches, including a one-cross-stitch wide "frame" of whatever color. The color and amount is NOT included in this materials calculation but in ALL the materials of the optional DECO FRAME ! If you choose to make the black/gold frame only from the optional deco frame, you will need approx. 2 skeins 993 and 1 card PB 35.	

Disclaimer : I make the conversions from the originally used and chosen materials into other products with help of original brand thread cards and samples of the beads and braids but following my own taste of color and the feeling of what will go with that particular design rather than using so-called "official" conversion charts, but please regard that the piece is designed for the use of the "original" materials (variegated silks etc) and the effect and overall look can be quite different if you use other materials. As well the size of other beads is different to the Delica beads.

I do not endorse *any* of the someplace offered "conversion packs" by some thread manufacturers as they rarely are made by comparison to the original materials I chose.

If you wish to use different materials feel free to do so , but please follow your own feelings, eyes and taste of color rather than buying "bulk" conversions !!

I am not responsible if you do not like the look of the conversion materials.

If you want the piece to look the same, use the same :)

<u>One <i>single square</i> has the stitch count of 91 x 91</u> <u>If you stitch <i>ALL</i> 16 decorative frames on one pice of fabric, the stitch size is: 367 x 367 stitches</u> <u>On a 16/32 count linen the mere design size then would be 22.9 x 22.9 inches</u> <u>Do not forget to add a sufficient free edge all around !</u>		
Fabric color recommandations will come with the main thread and color list – and of course you can choose whatever whets your appetite....
