Whatever else tickles your fancy in means of seed beads, broken jewellery pieces, velvet ribbons, tiny bugle beads ... in the color scheme of this precious little bag. Semi precious stones... just collect “stuff” you might like to use...		
Zweigart Belfast Linen 3609 / 16 count Any unbleached/natural color will be pretty, but I am convinced that you will come up with many other ideas which color to use....	The mere design size is 109 x 112 stitches. You will need additional fabric on all sides for the finishing. I would propose a piece of linen of approx.11 x 11 inches at 16 count fabric for ONE side – you will need the same piece of fabric for the 2nd side of the pouch – regardless if you will keep it bare or stitch the pattern a 2nd time...and you will need double the amount of materials like beads or crystals too....☺	

Disclaimer : I make the conversions from the originally used and chosen materials with help of original brand thread cards and samples of the beads and braids but following my own taste of color and the feeling of what will go with that particular design rather than using so-called “official” conversion charts, but please regard that the piece is designed for the use of the “original” materials (variegated silks etc) and the effect and overall look can be quite different if you use other materials.

I do not endorse *any* of the nowadays offered "conversion packs" by some thread manufacturers as they rarely are made by comparison to the original materials I chose.
If you wish to use different materials feel free to do so, but please follow your own feelings, eyes and taste of color rather than buying "bulk" conversions !! I am not responsible if you do not like the look of the conversion materials. If you want the piece to look the same, use the same :)
