

Materials approximation for ALL parts of the Celtic Quilt Mystery project

Thread Lengths calculated for stitching on a 16ct fabric. You will need *more* when switching to lower counts... ☺

Please regard that this is an approximate length calculation only! It bases on a computer calculation and depending on personal stitching habits you might use more or less thread. *This calculation is for the ENTIRE Celtic Quilt Mystery project – all 4 x 4 designs, including the frame round each single design.*

You will find another calculation for the “frame” materials ONLY in the files, and for each part (A,B,C,D) I will give the materials list some time before the project begins.

If you compare these individual lists for the single parts ABCD with this total list, you can approximate if you wish to buy more of a specific color or thread !

So - even if you have to buy a gazillion threads for part A it can be reasonably less for the coming parts as you will be using same colors again and again and you are able to use up the leftover skein parts etc....

DB 671	73 beads
DB 051	76 beads
DB 335	94 beads
DB 158	97 beads
Del 612	98 beads
DB 506	517 beads

Svarovski 4mm Bicones:

Smoke Topaz AB ("a") = 64x
Chrysolite AB („c") = 11x
Emerald AB („b") = 15 x
Garnet Glacier Blue 2x ("d")= 11x

Thread Usage for the outer frames (only) of ALL parts (16) of the Celtic Quilt Mystery parts A,B,C and D

This is an approximate length calculation only! Depending on personal stitching habits you might use more or less thread.

Please regard that this is a materials list/usage approximation for the **decorative frames only.**

The lists for the materials etc for the "inner" parts is published separately but contains these materials as well – so do NOT order them double 😊

Thread Lengths at 16ct

	WL	SNC	RG	NPIGlo	TG	SP				
Black			993				10 yds	1.71 Skein	5 m	of 8 strands
